

## Galp Energia included in CDP - Climate Disclosure Leadership Index (CDLI)

Galp Energia has been included in the Climate Disclosure Leadership Index (CDLI) for the third consecutive year, where it has been recognised as the best Iberian company in the energy sector, achieving the highest score possible, with a total score of 100 points.

In 2014, Galp Energia integrates a select group of 10 Iberian companies, that have been awarded the highest scores in the CDP questionnaire - Driving Sustainable Economies concerning greenhouse gas emissions, emission reduction targets, and risks and opportunities associated to climate change.

CDP is an international non-profit organisation and is the largest and most comprehensive global system of dissemination of environmental information. The CDP is followed by 767 institutional investors, representing over \$92 trillion in assets under management, companies and governments, and envisages mitigating the risks inherent to the use of energy and natural resources, as well as identifying opportunities associated with a more responsible approach to the environment.
